
PROFAB Power Folder

PRODUCT DESCRIPTION

Features

- Hydraulic Powered (230v 3ph)
- 16 ga. bending capacity
- Simple programmable bend angles
- Adjustable pan tooling (for flanges up)
- Adjustable lower tooling for TDC TDF flanges or flanges down
- Backgauges available
- Manual (hand wheel with scale)
- Powered programmable backgauge
- Lower segmented TDC/F tooling
- Allows tight "Kicks" of these Flanges, in either direction
- Multiple fittings can be bent at the same time
- Read the degree of bend on the label (fitting), program that degree, and make the bend
- Upper tooling fingers are also segmented; allows for typical box and pan work to be performed

Hydraulic Box and Pan Brake

5ft, 6ft, 8ft, 10ft and 12ft

(and custom sizes available)
