
PROFAB Vertical Hydraulic Button Punch Cheek Bender

PRODUCT DESCRIPTION

Specifications

- Complete self-contained unit
- Hydraulic Power Package
- 1.5 HP Motor & switch
- 115 Volt, Single Phase, 60 Hz
- Weight: 200 lbs.
- 20 Gauge Capacity
- 30 Inch Bend Length

Button Punch Cheek Bender

This machine provides any shop with a complete work center for fabrication fittings. One side of the dual purpose bending die bends (approx. 7/16in), and punches the cheeks for Button Punch Snap Lock 90-degree fittings. Flip the die over and you have a 20 gauge Power Cheek Bender for making right-angle flanges for Pittsburgh fittings. Step gauge built into the die allows for 1/4in and 3/8in 90 degree bend.
